

BONALDO

Fluff

Designer: Mauro Lipparini

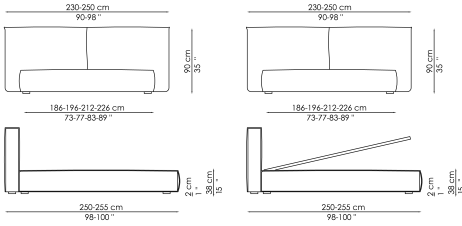

Fluff is a double bed with a soft, rounded design, inspired by the "Fluffernutter" sandwich, an American delicacy of marshmallows and peanut butter. The softness of the headboard and the bed frame is obtained through the feather padding, which puts the accent on sensations and comfort, including visual. The generous sizes and comfy forms of this bed

make it the absolute centrepiece of the sleeping area and the repository of carefree moments of relaxation. The fully removable cover is available in fabric, leather or eco-leather. Fluff is also made in the "open" version: the practical storage enables precious additional space to be gained for storing covers, cushions and everything necessary for the bedroom.
