CHIMES

Designed by Asger Risborg Jakobsen

PUT NATURE IN SPOTLIGHT

A simple piece of solid oak infused with a warm LED spotlight brings the Nordic tones of nature into the interior. Chimes is inspired by the graceful lines that occur in a dense forest of trees growing closely together. Designed with the thinnest possible shape in mind, the lamp has a spotlight effect that shines light exactly where you need it.

Create new areas and cosy spaces with focused light by using one, two or even clusters and lines of Chimes. An effortlessly charming and understated lamp, Chimes is bringing a focused lighting on kitchen counters and worktables. The lamp's spot also makes a good reading light beside a chair or over a dining table and has a cosy candlelight quality for relaxed evenings in the company of friends. Create special areas in bars, restaurants and hotel lobbies with Chimes' beautiful wooden surface.
